

Broad, splits and associated antigens.

The listing of broad specificities in parenthesis after a narrow specificity, e.g. HLA-A23(9) is optional. The following is a list of those specificities which arose as clear-cut splits of other specificities and of associated antigens (#) which are variants of the original broad specificity and not splits as previously defined.

Original Broad Specificities	Splits and Associated Antigens#
A2	A203#, A210#
A9	A23, A24, A2403#
A10	A25, A26, A34, A66
A19	A29, A30, A31, A32, A33, A74
A24	A2403#
A28	A68, A69
B5	B51, B52, B5102#, B5103#
B7	B703#
B12	B44, B45
B14	B64, B65
B15	B62, B63, B75, B76, B77
B16	B38, B39, B3901#, B3902#
B17	B57, B58
B21	B49, B50, B4005#
B22	B54, B55, B56
B27	B2708#
B39	B3901#, B3902#
B40	B60, B61
B51	B5101#, B5103#
B70	B71, B72
Cw3	Cw9, Cw10
DR1	DR103#
DR2	DR15, DR16
DR3	DR17, DR18
DR5	DR11, DR12
DR6	DR13, DR14, DR1403#, DR1404#
DR14	DR1403#, DR1404#
DQ1	DQ5, DQ6
DQ3	DQ7, DQ8, DQ9
Dw6	Dw18, Dw19
Dw7	Dw11, Dw17
